REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

It is noted that the claims read over the Link reference. Inter alias, it is noted that Link fails to teach ridge member at 12. However, there is only one opening 97. Portion 96 is a notch, not an opening. Thus Link '151 fails to teach a plurality of second openings. It is noted that the ridge as claimed, is defined in the specification as the protrusion 130. Drebusendo fails to show a protruding ridge from the body and the opening being extending parallel with the central axes of the recesses. It is noted the only protruding ridge is the handle at portion 36. Furthermore, Drebusendo fails to teach the openings being used to frictionally retain a plurality of items.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
